Please call the Union Hall office at 216-771-3929 to sign-up for classes or scan the QR code to register online. Classes are held at the Training Center at 1417 East 25th St., Cleveland Ohio 44114.

Classes begin at 8:00 A.M. promptly, please come to the rear door on the east side of the training center.

Class sizes are limited; please make sure you register ahead of time.

Suicide Prevention Training: will be held on December 12th at 8 am and will run approximately 2 hours long.

OSHA 30-Hour Training: is the week of February 3rd through February 6th and all 4 days **MUST** be attended to receive your certificate/card.

Silica Awareness/Fit Testing: Due to the known respiratory hazards of silica in the construction industry, Local 404 JATC will be conducting Silica Awareness and Training for the members of Local 404.

If you plan on being fitted for a respirator as part of the Silica Awareness Class, please be advised that requirements must be completed **before** attending the class on January 11th or 18th. See the checklist below –

1. You must be clean-shaven to be fit-tested, this means no facial hair. (No sideburns, goatees, or mustaches)
2. You must have a current drug card and be a member in good standing.
3. A medical Questionnaire must be completed and submitted to Mobile Medical one month before the fit testing. The medical questionnaire is available online at www.mobmed.com under the MARS Program section. This questionnaire can be submitted at the same site.
4. Once the medical questionnaire is approved a pulmonary function test must be completed. A pulmonary function test may be scheduled at Mobile Medical's office or Local 404 on the day of the fit test.

Once these 4 requirements have been met, you will be able to be fit-tested. Please bring the respirator you plan on wearing daily to the fit test.

ACI Flatwork Finisher: ACI Testing will be held at the Training Center this year and is open to all Journeymen. Please register in advance, you will be issued an ACI workbook for review ahead of time. There will be a review session before the test.

ACI Field Tech: ACI Testing will be held at the Training Center this year and is open to all Journeymen. Please register in advance, you will be issued an ACI workbook for review ahead of time. There will be two days of training prior to the exam on the 28th of February. Attendance to these training days are required in order to take the exam.

ASCC Certification: ASCC Polishing Training and Certification will be held at the Training Center this year and is open to all Journeymen. There will be an exam at the end of training and all Journeymen who pass will receive the ASCC/CPC Tradesman Certificate.

Introduction to Trimble Connect: This class will provide attendees with an introduction to computers and tablets. We will cover the skills necessary to operate Trimble Connect, a construction plan-sharing application, as well as how to access the basic functions of a computer or tablet.

Construction Management Systems: This year we are offering an introductory and full ProCore certification.

Trimble Robotic Total Station Training and Certification: This class is only available to attendees who have successfully passed the Introductory Class. This 5-day class will certify all attendees who pass the exam as Certified Operators through Trimble.

Shotcrete: The Shotcrete class will be held at the Training Center and is a part of an ACI presentation. Attendees will have a chance to work with the material and receive information about the upcoming ACI certification.

3D Printing: 3D Printing training will be held at the Case Western Reserve ThinkBox. Attendees will have the opportunity to learn the software and equipment associated with 3D Printing.
